**FDA FOOD SAFETY
MODERNIZATION ACT**

Presentation Objectives

To communicate information regarding food facility registration requirements as amended by the FDA Food Safety Modernization Act including new provisions

Food Facility Registration Background

The owner, operator, or agent in charge of a domestic or foreign facility engaged in manufacturing/processing, packing, or holding food for consumption by humans or animals in the United States is required to register the facility with FDA

- Food facilities must be registered before such operations begin
- The owner, operator, or agent in charge of a facility that is required to register may authorize an individual to register the facility on its behalf
- Food facilities that are required to register with the FDA must renew their registrations every two years, between October 1 and December 31 of each even-numbered year. The next registration renewal period will be October 1 through December 31 of 2018.

Food Facility Registration Background

The following facilities are exempt from Food Facility Registration requirements:

- A foreign facility if food from the facility undergoes further manufacturing/processing (including packaging) by another facility outside the United States. The foreign facility is not exempt from registration if the further manufacturing/processing (including packaging) activities of the subsequent facility are limited to affixing a label to a package or other de minimis activity.
- Farms
- Retail Food Establishments
- Restaurants
- Nonprofit Food Establishments in which food is prepared for, or served directly to, the consumer
- Certain fishing vessels not engaged in processing;
- Facilities regulated exclusively, throughout the entire facility, by the U.S. Department of Agriculture (USDA) under the Federal Meat Inspection Act (21 U.S.C. 601, et seq.), the Poultry Products Inspection Act (21 U.S.C. 451, et seq.), or the Egg Products Inspection Act (21 U.S.C. 1031, et seq.).

Food Facility Registration Final Rule

- The final rule codifies FSMA requirements that were effective immediately, implements other FSMA provisions and other amendments necessary to improve the utility of the registration database, allowing the agency to better respond to food-related emergencies and better use its limited inspection resources
- Rule became effective September 16, 2016

FSMA Requirements

- The e-mail address for the contact person of the facility or, in case of a foreign facility, the email address of the U.S. Agent for the facility
- Assurance that FDA will be permitted to inspect the facility at the times and in the manner permitted by the FD&C Act
- Updated food category information, as determined appropriate by FDA
- Biennial Renewal
- Suspension of Registration

Provisions to Improve Accuracy of Registration Information

- Unique Facility Identifier(UFI) requirement
 - Will assist FDA in verifying accuracy of site specific address
 - FDA verification of UFI prior to issuance of registration number
 - To be implemented October 1, 2020
- US Agent Voluntary Identification System(VIS) and verification procedure
 - Email verification prior to issuance of registration number
 - US Agent VIS to be implemented in 2018
- Requirement for email address of owner, operator, or agent in charge who authorized a third party to act on behalf of the facility and verification procedure
- Some previously optional fields are now mandatory
 - Preferred mailing address, emergency contact email address, type of activity

Other Amendments to Food Facility Registration

- Electronic registration as of January 4, 2020
- Waiver process:
 - For registrants unable to submit registration, registration renewals, updates, or cancellations electronically
 - Also from the requirement to provide the email address of the owner, operator, or agent in charge of the facility, as well as a waiver from the requirement to provide the email address for the individual who authorized registration submission
- Abbreviated Registration Renewal Process
- Authority to cancel registrations in additional circumstances
 - FDA independently verifying facilities not required to register, facility address not updated in a timely manner, unauthorized registration submissions, registration expiration due to failure to renew
- Require immediate update to incorrect registration information
- Changes to activity types
 - Addition of Ambient human food storage warehouse/holding facility, Refrigerated human food warehouse/holding facility, Frozen human food warehouse/holding facility, Farm Mixed-Type Facility, Animal food warehouse/holding facility

Amendment to Retail Food Establishment Definition

- Clarifies that in determining the primary function of an establishment, establishments located on a farm and “farm-operated businesses” may consider sales directly to consumers at:
 - Roadside stands
 - Farmers’ markets
 - Community Supported Agriculture (CSA) programs
 - Other such direct-to-consumer platforms

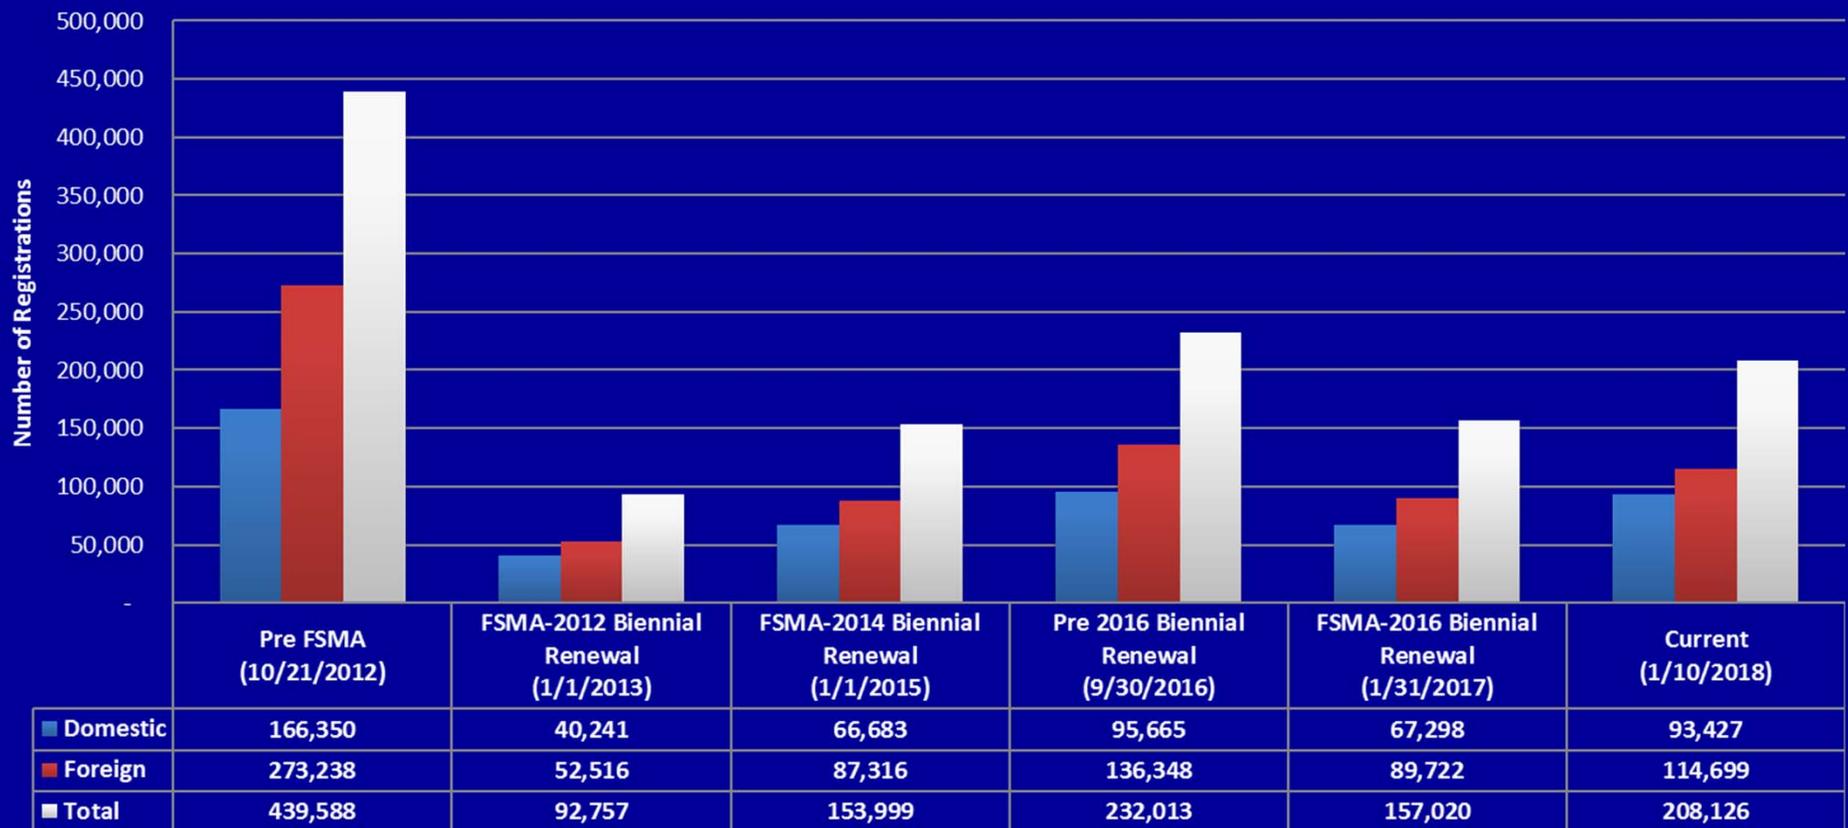

Preventive Controls and Food Facility Registration: On-Farm Activities

- Section 103(c)(1)(A) of FSMA, regarding Hazard Analysis and Risk-Based Preventive Controls, required that the Secretary publish a notice of proposed rulemaking in the Federal Register to issue regulations with respect to "activities that constitute on-farm packing or holding of food that is not grown, raised, or consumed on such farm or another farm under the same ownership" and "activities that constitute on-farm manufacturing or processing of food that is not consumed on that farm or on another farm under common ownership" within the context of section 415 of the FD&C Act.

The screenshot shows the FDA website's 'Registration of Food Facilities' page. At the top, it features the FDA logo and the text 'U.S. Food and Drug Administration Protecting and Promoting Your Health'. A navigation menu includes links for Home, Food, Drugs, Medical Devices, Radiation-Emitting Products, Vaccines, Blood & Biologics, Animal & Veterinary, Cosmetics, and Tobacco Products. The main content area is titled 'Registration of Food Facilities' and includes a 'Food Facility Registration' sidebar with links to 'Online Registration of Food Facilities', 'Acidified & Low-Acid Canned Foods (LACF) Registration', 'New Dietary Ingredients Notifications (NDI)', 'Qualified Facility Attestation', 'Shell Egg Producer Registration', and 'Structure/Function Claims Process'. The central text area contains 'FDA Industry Systems' with a 'Login / Create Account' link, OMB Approval Number: 0910-0502, OMB Expiration Date: 08/31/2016, and a link to the 'OMB Burden Statement'. Below this, it explains the Public Health Security and Bioterrorism Preparedness and Response Act of 2002 and lists regulations requiring food facilities to register with FDA. A 'Contact FDA' sidebar provides the phone number 1-800-216-7331, the email FURLS@fda.gov, and the hours of the FDA Industry Systems Help Desk.
