

Bulletin 21-37 June 3, 2021

**CIAA Bulletin**

**An Exclusive CIAA Member  
Update**

## **ATLAS Not Reflecting Individual Entries**

The CIAA is aware that the new ATLAS dairy import licensing management system is not currently reflecting individual entries and reached out regarding this issue. USDA has informed CIAA of the following:

- USDA is aware of the issue and it appears to have been an oversight when the system was migrated from DAIRIES to ATLAS.
- License holders should be able to see the percent utilization of each license, but cannot review the individual entries at the moment.
- USDA is working to resolve this issue quickly. USDA appreciates license holders' patience at this time.
- License holders should continue to submit a Query to FAS through the ATLAS system when issues with the ATLAS system, like this, arise.

We are working with USDA to resolve this issue as soon as possible as we are aware that many companies use this information to monitor license usage and reconcile entries. We will keep CIAA members updated and this issue evolves.
