## **Update on ATLAS Functionality**

The CIAA is aware of the continued difficulty for members of monitoring dairy import license usage because ATLAS does not reflect individual entries at this time. The CIAA has been in communication with USDA-FAS regarding this issue. USDA-FAS has shared that the IT department is working to provide this functionality but do not have a timeline for when this may be added to ATLAS. We also understand that members are continuing to have issues with CBP not accepting entries using globalized licenses. USDA-FAS is also working to address this issue. The CIAA Executive Committee is scheduling a meeting with key staff at USDA-FAS to discuss the need for this functionality within ATLAS as well as issues with globalized licenses.

The CIAA continues to monitor developments related to this trade dispute and keep members updated as occur. Members with questions regarding these developments should contact the Husch Blackwell LLP team at the following email address:
